76. The Forgotten Magic of Zoey Turner

352pp

Zoey Turner used to see magic everywhere. With a dad like Zoey's, it was hard not to. Not only did they read *The Magic of Ever After* series together every day, they also used to create original stories. Used to. Ever since her dad died unexpectedly last year, all Zoey sees is danger. Fear has shrunk homeschooled Zoey's life to the span of one block, where she keeps close to the people that she needs the most. Her mum is almost never out of sight, and Jada, the owner of Ever After Books, is always around to talk about their favourite fantasy trilogy. Zoey finally ventures outside her comfort zone for the chance to meet famed author Raven M. Wells, only for the outing to lead to a panic attack.

'Absolutely loved this book! I could relate to Zoey's character and the anxiety she faces. Erin always does such a great job making her characters feel relatable. This is a wonderful book for tweens, teens, and anyone who needs a reminder that they aren't alone in their mental health challenges.' - Amazon.com.au

77. I Know What You're Hiding

320pp

A deadly blaze. A desperate girl. Three days to crack the case. Everyone knows the story. Jamie George was the golden child. Her sister, Morgan, was nothing but trouble. When their house mysteriously burned down, Jamie barely survived. Morgan wasn't so lucky. Three years later, teen podcaster Zoe Gale receives an urgent message. Jamie needs help. She's received a threat written in blood and a demand for cash. Instead of paying up, Jamie wants Zoe to unmask the blackmailer. Zoe's tangled with dangerous people before. And there's something about Jamie she just doesn't trust. But soon she's digging up secrets someone would kill to keep buried ...

'This book was just as good as the first. I loved the plot and how the story played out and I couldn't guess what was coming next. Would recommend this series.' - Goodreads.com

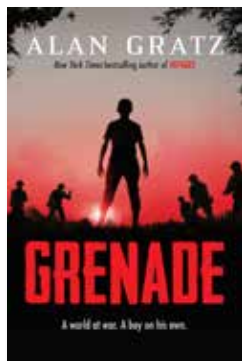

78. Grenade

288pp

It's 1945, and the world is in the grip of war. Hideki lives with his family on the island of Okinawa, near Japan. When WWII crashes onto his shores, Hideki is drafted into the Blood and Iron Student Corps to fight for the Japanese army. He is handed a grenade and a set of instructions: Don't come back until you've killed an American soldier. Ray, a young American Marine, has just landed on Okinawa. This is Ray's first-ever battle, and he doesn't know what to expect, or if he'll make it out alive. He just knows that the enemy is everywhere, with ambushes and dangerous traps. But then the two of them collide in the middle of the battle...and choices they make in that single instant will change everything. Alan Gratz, *New York Times* best-selling author of *Refugee*, returns with this high-octane story of how fear and war tear us apart, but how hope and redemption tie us together.

'Told by both young men, the story is gripping from start to finish as each encounters ambushes, engages in battles and experiences their devastating aftermath, and mourns the plight of innocent civilians caught in the middle. Impossible to put down, the story unapologetically demonstrates how war affects people emotionally and physically.' - Booklist

79. Into The Storm

336pp

Silas's life is spiraling out of control when he receives an invitation from Eve to trek the Tasmanian wilderness, with a disclaimer: It will be cold. Remote. Treacherous. And I cannot guarantee passage home alive. The trek is a sheer vertical climb. In Antarctic conditions. Subject to violent storms. Untamed, unpeopled and dangerous. Also, exactly what Silas needs to reset his compass. But then a polar blast hits. Perilously cold and cut off from help, Silas and Eve face a stark, gale-forced world. And one terrible choice. Choices are not always easy, even when they're right. But Silas has never shied away from making tough decisions. Until now. Until this. Because this is the most brutal survival lesson. And sometimes the cost of saving a life can only be measured by the cost of losing one.

'This had me on the edge of my seat from beginning to end, and it is going down as a firm favourite for 2026 so far...' - Goodreads.com

80. Magnitude

304pp

San Francisco, 1906. When Cora leaves her house in the early morning hours of April 18th, she expects trouble to find her, like it somehow always does. But as she makes her way to the San Francisco docks to look for her father, the earth begins to shake and suddenly, Cora realises that she's not just in trouble—she's in danger. Soon after, the last thing Cora remembers seeing is a tall building swaying overhead, before everything goes dark. When Cora wakes up, she's trapped underground with Chi, whom she met by accident on the way to the docks. They're running short on air and time, when miraculously, Cora's friend Oliver pulls them from the rubble. Once she's above ground again, Cora is shocked to find herself in a city that has been decimated by a massive earthquake. Together, Cora, Chi and Oliver begin a desperate search for their families, all the while trying to evade terrifying fires that are tearing through the wreckage and a gang of thieves who are pursuing Cora and a valuable secret she holds.

'...This one didn't disappoint! The intensity of these three teenagers strive to survive an earthquake while finding their families. So much action and excitement. I also didn't know a lot about the San Francisco earthquake. She is a master at bringing her research into her historical fiction books. Excellent read!' - Goodreads.com

81. His Dark Materials: The Subtle Knife

368pp

The extraordinary *New York Times* bestseller hailed as one of the best books of all time is now the basis for an HBO original series. Philip Pullman takes readers to a world where humans have animal familiars and where parallel universes are within reach. Lost in a new world, Lyra finds Will - a boy on the run, a murderer - a worthy and welcome ally. For this is a world where soul-eating Specters stalk the streets and witches share the skies with troops of angels. Each is searching - Lyra for the meaning of Dark Matter, Will for his missing father - but what they find instead is a deadly secret, a knife of untold power. And neither Lyra nor Will suspects how tightly their lives, their loves, their destinies are bound together...until they are split apart.

'A masterwork of storytelling and suspense, Philip Pullman's award-winning The Subtle Knife is the second book in the His Dark Materials series, which begins with Northern Lights and continues with The Amber Spyglass.' - Amazon.com
